### CENTER INDUSTRIES CORPORATION

Center Industries is an industrial manufacturer whose mission is to provide dignified employment opportunities for individuals with disabilities as a member of a fully integrated workforce. Center Industries was started in 1975 by John Jonas with 12 employees and one customer, the State of Kansas. Their first job was to produce license plates and now 42 years later they are still producing license plates but they also do metal fabrication, CNC machining, assembly and printing for customers around the world as well as the Department of Defense, and for the local state and government agencies.

#### Morning Agenda

8:00: Nikki Burris, HRM, will introduce some of her favorite accommodations that Center Industries have done and discuss the impact it's had on Centers Industries.

8:20 What accommodations have you made in your workplace? *Time for meeting your neighbors*

8:35 Hands on tour of accommodations done at Center Industries.
